

# Parent Tip #1

Keep track of the alcohol in your home.  
Count it and lock it up.

## 21 reasons

to prevent underage drinking.

### Tip #1: Limit Access

**Most teens get their alcohol from home.** If you have alcohol in your home, **count it and lock it up.** Other sources include retail outlets that are not diligently checking ID's. Help encourage ID checks by thanking clerks and servers who card.

**Don't take the law into your own hands.** Alert the police if you have information regarding where and how teens are getting alcohol.

It is never too early — or too late — to prevent underage drinking.
